PREPAY SERVICE STATION NOZZLES WITH HOLD OPEN CLIP

The Prepay Service Station cannot be opened until the pumping system is pressurized, and closes automatically when the pressure is removed. This means that the prepay nozzle is closed when placed back in the dispenser storage position to prevent accidental spillage of gasoline when the dispenser is authorized.

RECONNECTABLE BREAKAWAYS

RECONNECTABLE BREAKAWAYS				
OPW Reconnectable Breakaway   The OPW 68EZR Reconnectable Breakaway is designed for retail fueling operations to deliver an increased level of security in the event of a drive off. Upon separation the dual valves seat automatically, stopping the flow of fuel and limiting fuel spillage while protecting the dispensing equipment.	MODEL #		PREFERRED	
	28-68EZR-7575 3/4"		\$ 111.62	
	28-68EZR-1010 1"		\$ 161.30	
CATLOW CAMTWIST MAGNETIC BREAKAWAY  The Cam Twist is Catlow's revolutionary magnetic inspectable breakaway. With the ability to separate and inspect. You have assurance that your breakaway will perform when you need it to most, and thus eliminating the need for a "Remove By" date.	05-CTM75 3/4"		\$ 106.05	
	05-CTM100 1"		\$ 154.50	
HUSKY MAGBREAK  NEW Husky Magbreak gives you assurance of proper reconnection using a simple "twist to lock" feature. Absorbs line shock in excess of 450 psi at 17 GPM. High impact resistant polymer housing	11-8330 3/4"		\$ 120.47	
	11-8331 1"		\$ 181.66	
BREAKAWAY HOSES  Available in 3 Sizes Use between nozzle & breakaway or between dispenser outlet and breakaway.	MALE X MALE	PREFERRED	MALE X SWIVEL	PREFERRED
