FILL CAPS & ADAPTORS

	MODEL #	PREFERRED
Vented Fill Cap 179 179M Loose-seal style cap with hinged cover for fill port of small storage tanks. Lockable with a padlock. Aluminum or cast iron. Available with male and female threads.	09-179-0100 2” Female	$ 22.20
	09-179-0300 3” Female	$ 49.81
	09-179-0400 4” Female	$ 64.49
	09-179CI-0100 2” Female Cast Iron	$ 51.80
	09-179M-0100 2” Male	$ 24.09
	09-179MCI-0100 2” Male Cast Iron	$ 48.97
 Pre-Vent Fill Cap Combination Vent & Fill 2” Male NPT	03-60001 PREVENT FILL CAP	$ 24.48
	03-60003 REPLACEMENT TOP	$ 13.05
 305 Fill Adaptor Adaptor is profile machined for cam and groove fit on industry standard tight seal caps.	09-305-0000 2”	$ 69.31
	09-305-0200 4”	$ 86.35
305 C Fill Cap 4” Cap has center pull ring with toggle cam to fit adaptor groove. Tight seal and lockable. Powder-coat finish. 2” Cap has a single lever.	09-305C-2000 2”	$ 58.80
	09-305C-0100 4”	$ 62.87
Vapor Recovery Installed on Vapor Adaptors and Vapor Swivel Adaptors to prevent water and debris from entering the tank and prevent vapor from escaping when the adaptors are not in use. The cap has a tight seal and orange powder-coated finish.	09-323C-0100-AC 4”	$ 67.34

VENTS

354 Updraft Vent

"Open" vent used on underground and aboveground tanks for motor fueling. Vent allows tank to "breath" during filling/dispensing operations.

MODEL #	PREFERRED
09-354-0100 1 1/2"	$ 35.58
09-354-0200 2"	$ 29.75
09-354-0300 3"	$ 70.79
09-354-0400 4"	$ 156.45

155 "T" Style Vent

Aluminum T-style Vent used primarily on small fuel oil storage tanks. Outlet ports on either side of the inlet with 20 mesh stainless steel screen keeps debris out of the airway.

09-155-0200AV 1 "	$ 27.17
09-155-0400AV 1 1/2"	$ 34.59
09-155-0500AV 2"	$ 41.61

Mushroom Vent Caps

Rust-resistant galvanized cast iron design is available in female NPT sizes from 3/4" to 4" Each cap is designed with a 30 mesh screen, to prevent debris from entering the vent pipe.

51-4021 3/4"	$ 12.62
51-4022 1"	$ 16.37
51-4023 1 1/4"	$ 18.63
51-4024 1 1/2"	$ 22.64
51-4025 2"	$ 32.04
51-4027 3"	$ 101.95
51-4028 4"	$ 119.01

ANTI-SYPHON VALVES

Anti-Syphon Valve

-Thermal Expansion pressure relief valve
-Automatically Shuts Flow Off When Lines are Broken
-Each Valve has an Adjustable Head Pressure

5' TO 12' HEAD PRESSURE	26-605-300-01 3/4"	$ 624.84
	26-606-300-01 1"	$ 642.62
	26-616-300-01 1 1/2"	$ 662.94
	26-636-300-11 2"	$ 764.54
12' TO 25' HEAD PRESSURE	26-616-300-02 1 1/2"	$ 662.94
	26-636-300-12 2"	$ 764.54

MORRISON EMERGENCY VENTS

	MODEL #	PREFERRED
244OM SERIES MALE THREADED CAST IRON E-VENTS Emergency vent (pressure relief only) used on aboveground storage tanks, as a code requirement, to help prevent the tank from becoming over-pressurized and rupturing if exposed to fire.	09-244OM-0020AV 2" MALE THREAD	$ 93.92

TANK GAUGES

Kreuger At-A-Glance Gauges

Direct mechanical action, reliable construction and “at-a-glance” readability make this gauge a perfect choice for tanks with depths up to 12’.

- Patented calibration assembly withstands pressure of 70 lbs. per sq. inch.
- Double plastic dome is almost indestructible.
- “Gallon” readout available for Standard 275 Gallon Oval Tanks.
- All “internal tank” parts available in stainless steel or plastic.
- Repair parts available.

Tank Depth	MODEL #	PREFERRED
27”	12-D-1.5-27 1 1/2”	$ 34.57
	12-D-2-27 2”	$ 34.57

KRUEGER H TYPE GAUGES & KING GAUGES

Krueger Type H Therma Gauges

The therma Type H gauge is a reliable, swing arm type tank gauge. The difference from an At-A-Glance gauge and Type H gauge is the bushing. This gauge has an easily removable bushing which allows you to thread the bushing into the tank first. This eliminates the swing arm from spinng inside the tank and allows you to aim the swing arm where you want it.

* Galvinized Construction
* HDPE Floats
* Aluminum body

Tank Depth	MODEL #	PREFERRED

51-4517 2" x 2"	$ 62.51

818 Clock Gauge

Morrison Bros. Co.
Established 1855

For Measuring liquid level in aboveground storage tanks. Gauge mounts on top of tank and is activated by a float connected to a cable. Readout is on a 1 hour clock face. Small hand=feet, Large hand=inches. Gauge can be read 20-30 feet away. Maximum measurement is 12 feet.

09-818-0100AGEVR Clock Gauge	$ 672.08

918 Clock Gauge

Utilizes the 818 clock gauge with a built-in high level warning alarm. Contains a battery powered, intrinsically safe alarm unit that is mounted in a remote location. Alarm level is set during installation and can be reset at any time.

09-918C-0100AG Clock Gauge w/ Alarm	$ 1,511.74

OPW TANK GAUGES

OPW 200TG TANK GAUGE

The OPW200TG tank gauge is designed for reading liquid levels in horizontal vertical aboveground storage tanks. It provides an accurate numerical counter readout, eliminating the need for any on-site manual gauging. Fits up to a 40' tank. UL Listed.

MODEL #	PREFERRED
28-200TG-ENG18 UP to 18'	$ 738.99
28-200TG-ENG40 UP to 40'	$ 871.96

FEATURES:

* **Vapor Tight:** Allows for standard tank pressure testing, sealing up to 25 PSIG.
Angled Face: Improves visibility from ground on large diameter tanks. May be read easily up to 30' away.
Swivel Adaptor Base: Allows 360° gauge face rotation for easy viewing wherever needed.
Easy Installation: 2" NPT threaded base reduces labor time and comes standard with female thread. A 200-0202 may be purchased for male thread applications.
* **Corrosion-Resistant Construction:** A powder coated die-cast aluminum body ensures long service life in many fluids.
* **Float Buoyancy:** Designed to float in all fluids with a specific gravity of 0.65 or greater.
* **Unit Measurement:** Can be purchased in metric units to read in meters, 1/10, 1/100, or english units to read in feet and inches accurate to 1/8'.
* **Maintenance:** No annual maintenance required.
* **Tank Size:** Available in either 18' or 40' tank depths.
* **Drop Tube:** Prevents float entanglement in the tank and gives the gauge a more accurate reading when turbulence is present. **(SOLD SEPARATELY).**

OPW 144TA LIQUID LEVEL TANK ALARM

The 144TA Tank Alarm is designed for one tank. The 444TA is designed for four tanks. Both have high or low liquid level sensing in liquid tanks. Both audio and visual indicators are used to ensure reliable notifications. Both the 144TA and the 444TA require the 44TA-LLFS liquid level float switch.

FEATURES:

* **Long Life Lithium Battery:** Self powered by a Lithum battery; includes a 10 year shelf life to ensure peace of mind for the owner.
* **Visual Notifications:** Red alarm light flash during use for notification to the user. Low battery light indicates when battery needs replacing.
* **Audible Alarm:** Sounds a 90 decible alarm at 4' away to meet OSHA requirements.
* **Active from the time it leaves the factory:** There is no on/off switch to deal with which means no drained batteries and operator error are eliminated.
* **Stainless Steel Pipe Construction:** Allows use in any array of fluid applications.
* **Easy Installation:** Requires no calibration and installs easily into a 1" bung.
* **Cold Weather Applicable:** All components are rated for -40°F operation.

GATE, BALL, AND SOLENOID VALVES

Lockable & Non-Lockable Gate Valves

Rising Stem Gate Valve used for manual flow control in petro-chemical liquid handling. Available in brass and ductile iron. This gate valve operates by rotating handwheel counter-clockwise to open or clockwise to close. Valve can be left partially open to control flow rate. Cold non-shock pressure limit of 200 psi. Available with standard Buna seals or with Teflon seals.

FULL PORT BALL VALVES

Full port ball valve used for liquid handling with manual open-close in quick quater-turn handle operation. Threaded (NPT) connections. Valve can be operated in partial or open position. B0series is Lockable with padlock.

Solenoid Valves

- Explosion Proof
-110 Volt
- Used to prevent accidential siphoning
