OPW Engineered Systems fabricated and cast ball bearing swivel joints offer many outstanding features that contribute to their dependability and long life. Quality construction standards include precision machining and 100% penetration welding by certified welders. OPW swivel joints allow you to construct a metal piping system that is moveable, flexible and reliable.

Also available in stainless steel, carbon steel, cast bronze and ductile iron.

DECKO PUMPS AND IMPELLERS

	MODEL #	PREFERRED
Decko Pump This is the original Simer impeller pump used for years in the petroleum industry to transfer fuel or water from small tanks and sumps. It can be easily mounted on a channel iron or wooden base using a 2 piece coupling and a foot mounted motor. The pump is available in 3/4" (BP20X) or 1" (BP21X) with the X signifying an impeller suitable for fuel.	**52-BP20X** 3/4" Up to 15 GPM	**$ 231.21**
	52-BP21X 1" Up to 28 GPM	**$ 300.68**
Decko Impeller Kits Kit includes impeller, shaft and body gasket. 52-53X fits BP20X, 52-63X fits BP21X	**52-53X**	**$ 51.87**
	52-63X	**$ 63.95**
Decko "The Bull Dog" The Bull Gog incorporates a Simer impeller pump with 1/2 HP GE commercial grade motor, 8' grounded power cord, base, coupling and guard for a system that is easy to carry and quick to set up. Just add quick couplers and 1" suction and discharge hoses. The Bull Dog is capable of up to 28 GPM and can handle most corrosive and flammable liquids, as well as water up to 180*	**52-90000** Non-explosion Proof	**$ 1,002.19**
	52-91000 Explosion Proof	**$ 1,709.60**
